Laboratory Listing

Laboratory Name: University Hospital Ostrava
Center for Cell Therapy and Diagnostics
4MEDI –Biotech Business Park for Medical Innovations

Contact Name: Vaclav Prochazka, MD, PhD, MSc

Address: Trida 17.listopadu 1790, Ostrava-Poruba, Czech Republic

Telephone: +420 775590801

E-mail: vaclav.prochazka@fno.cz

Lab Facilities Description (250 words): Tissue center for adult stem cell therapy application from bone marrow derived stem cells for the non option critical limb ischemia. Research in the field of the adipose derived stem cell ASC-SVF for various treatment indications.

Animal Facilities (Yes/No): contracted

Type(s) of Animal(s): rabbits, pigs, rats

Type of Research: Translational clinical research, clinical trials

Funding: Regional government, various grant agencies

Research Fellowship Available: (Yes/No): YES

Primary Investigator's Name: Vaclav Prochazka, MD, PhD, MSc

Project Title: Randomised clinical study of autologous bone marrow aspirate concentrate (BMAC) activity for No-option _critical limb ischemia in Type-II diabetes mellitus patients. (DIALEG)

Brief Project Description:

Randomized trial focused on critical limb ischemia therapy with i.a., i.v., i.m. application

Opportunity for student degree program (Yes/No): Yes

Funding available from supervisor – if yes, include details: Grant project

Other Requirements: No
